Metro Design Concepts
495 Waverley Road
EAST MALVERN VIC 3145

Testimonial

“.....Metro Design Concepts excellent knowledge and experience in the Aged Care Industry have added value to our business. MDC consult at a professional level.....are courteous, friendly, providing outstanding skilled support and excellent after sales service.”

“A step above the rest”

In my dealings over the past three and half years with the team at MDC, they have ensured our business goals are being met and are always professional, courteous and friendly. Their knowledge in the complexities of the Aged Care Industry is invaluable.

MDC manage all the processes and risk to ensure the delivery of the service and products are timely and on budget. Their fee for service is very competitive coupled with providing outstanding skilled support. The team understands the complexities of Compliance and OH&S issues through the design process, procurement and placement of FF&E.

The highly skilled team of professionals at MDC allow them to provide a holistic suite of design services – they are a ‘one stop shop’ for all our FF&E requirements.

Client satisfaction is evident through ongoing National Building Awards for best facilities - New Buildings and Renovations.

I would have no hesitation in recommending them within this industry forum or for other interior design disciplines.

Kind regards
Mark Maller
